

Members of the Shelby County Election Commission

In 1907, Senate Bill 111 created the Commissioners of Elections for each county in Tennessee. The Commission was to consist of three members, with no more than two Commissioners to be of the same political party. The bill went on to require that the appointments be made on the second Monday of May in 1907 and then every two years after that. In 1969, new legislation changed the Commission to a five member board with no more than three members being of the same party.

| Term | Name | Role | Party |
|------|--|-----------------------|--|
